### Internal Swing Doors:

QS6055/1AS Mortice euro lock.  
Backset 55mm.  
Centres 57mm.  
*To use with QS6000 key insert.*  
Forend available in:  
Stainless Steel  
Satin Brass

This lock offers heavy duty springing and silent triple latching suitable for use on un-sprung levers.

### QS6000 Key insert:

This is available with 'to differ' and 'keyed alike' option. It is a 11vr insert and suitable for internal doors only. Each insert comes with 2 keys.

### Options for Cylinder locking:

**To Differ:** Each cylinder uses its own keys only and cannot unlock other cylinders. (c/w 3 keys)

**Keyed Alike:** Each cylinder's keys can work with another cylinder on the same keyed alike suite. (c/w 1 key)

**Master keyed:** Each cylinder uses its own keys only and cannot unlock other cylinders. (c/w 2 keys)  
There is a Master key that can unlock all these cylinders if they are on the same master key suite. Client has the option of different master key suites for different areas of the house.

Please refer to diagrams on next page for more info on locking options.

**To Differ:**

Cylinder keys are operated by their own individual key only.

**Keyed Alike:**

All cylinder keys are operable on each other's cylinder's in same keyed alike suite.

**Master keyed:**

All cylinders are operable by their own individual keys and by a Master key.

**Imperial Lock Option:**

Imperial Locks offer a high quality lock imported from the UK. They have been making locks since 1981 and adhere to European standards. There is a 10 year warranty on all products. Products are certified to BS EN 12209:2003 for performance and the complete range is approved to BS EN 1634-1:2000 for use on fire rated doors.

We recommend this range if you would like to use keyhole throughout the house.

**5lvr mortice lock: (suitable for external doors)**

Offers a higher security keyhole lever system. Various mortice lock body options are available with varying backset sizes, as well as option of vertical locks or horizontal locks for knobs. These locks are available as to differ, keyed alike or as a master key. For knobs a standard spring is available, and for lever handles a heavy duty spring is available.

**3lvr mortice lock: (suitable for internal doors)**

Various mortice lock body options are available with varying backset sizes, as well as option of vertical locks or horizontal locks for knobs. These locks are available as to differ, keyed alike or as a master key. For knobs a standard spring is available, and for lever handles a heavy duty spring is available.

**Euro mortice lock:**

Imperial Locks also offer a high quality euro mortice lock body to be used with cylinders.
